VAL DE FLORES | |

STORY

The small vineyard producing this wine is planted with Malbec vines more than fifty years old. It is situated at the foot of the Andean mountain range, at Vista Flores, South Mendoza. The view is breathtaking: row after row of vines bordered with rose bushes and olive trees, with snow-topped peaks in the background, all basking in wonderful sunshine under a vast, incredibly blue sky.

Dany and Michel Rolland devoted all their care to the grapes at Val de Flores, and all their skill, enthusiasm and experience to the winemaking, while respecting the exceptional environment. Compared to the immense spaces surrounding it, the vineyard almost looks like a garden.

They sincerely hope that Val de Flores will always celebrate this enchanting preserved nature, as well as sharing their passion for Argentinean wines !
